

Wow! Basic Income!

The Co-Creative Exhibition
on Unconditional Basic Income

A project vision of the Hamburger Netzwerk Grundeinkommen e.V.

We provide cultural inspiration.

Pioneer of a "Good Life"?

The Unconditional Basic Income is a personal and democratic challenge, not a land of milk and honey.

How does it feel to live in a basic income society? How would a basic income change my personal life? How could a basic income become a reality?

Element of a "Good Life"

F R I E N D S

A key element of a "Good Life" can be an Unconditional Basic Income. But what exactly is the UBI? How can it positively influence our society? Why is the UBI an opportunity for all of us?

Even dealing with questions like this can have a positive impact on social change and provide cultural inspiration.

A mobile world of experience

A person with long dark hair, wearing a tan bucket hat and a black and white striped t-shirt, is using a VR headset. They are sitting at a white table with a smartphone on it. The background is a green wall with vertical slats. The text 'A mobile world of experience' is overlaid on the left side of the image.

We want to create public places in which people can be touched, inspired and actively involved.

The aim is to stimulate debate in order to think about oneself, one's life, one's work or one's non-work and about the creation of an Unconditional Basic Income.

We create a space to ask questions and find answers - open to results and without lecturing.

We've got big plans.

An exhibition that provokes questions

...and makes you think.

We confront visitors physically and emotionally with social issues and provoke valuable questions.

We offer the necessary space for a personal confrontation and the development of one's own attitude.

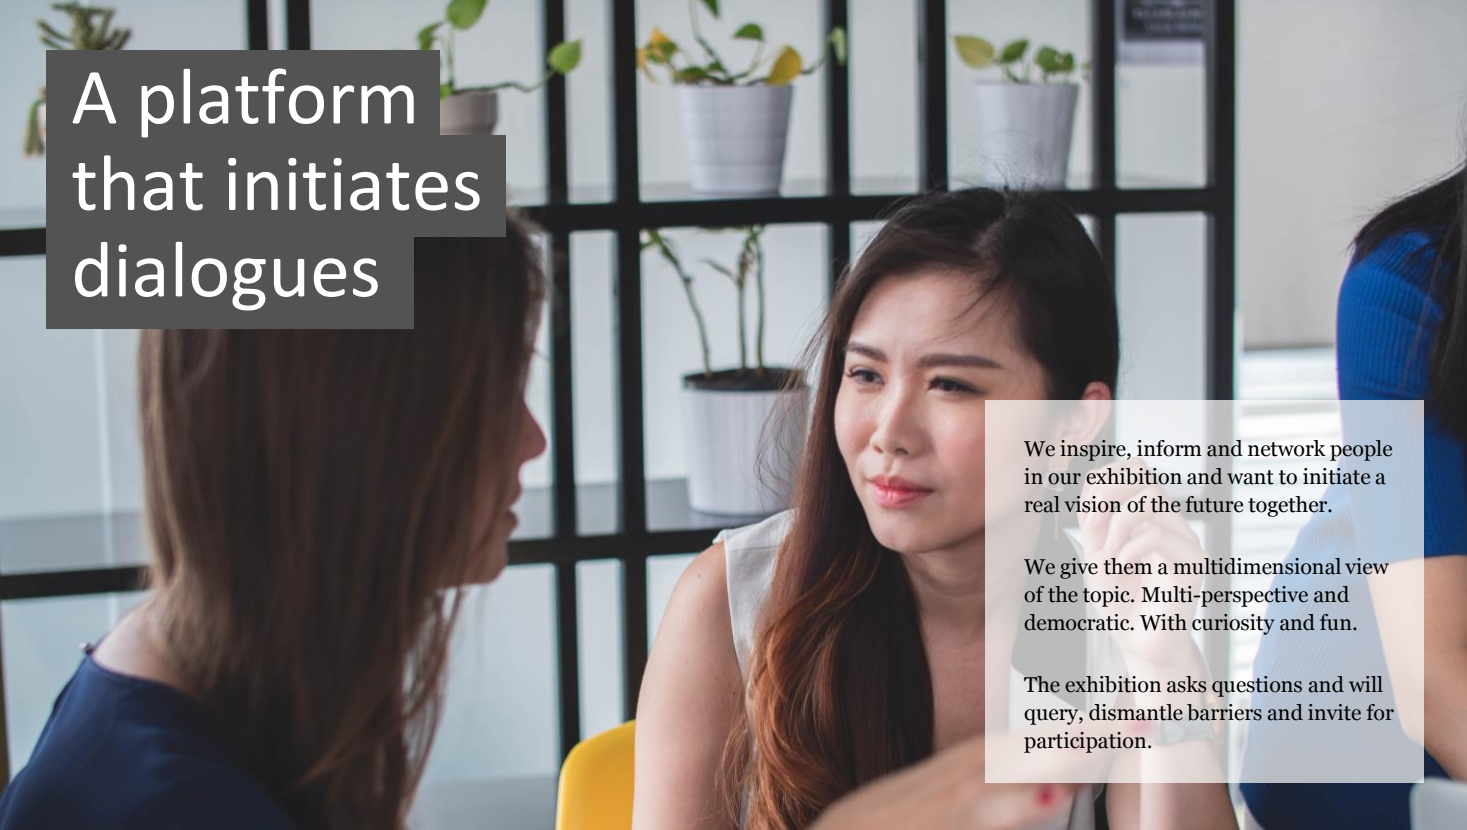

An open place of encounter

An open place that focuses on the human being.

Be they young or old, with or without a job, self-employed or employed, in school, training or university, parents, married or single, volunteered or retired.

Our exhibition addresses everyone who wants to set impulses for the future together.

A platform that initiates dialogues

We inspire, inform and network people in our exhibition and want to initiate a real vision of the future together.

We give them a multidimensional view of the topic. Multi-perspective and democratic. With curiosity and fun.

The exhibition asks questions and will query, dismantle barriers and invite for participation.

A woman wearing a brown knit hat and a brown coat with a green scarf is blowing bubbles. She is surrounded by a large crowd of people, many of whom are also blowing bubbles. The scene is filled with numerous colorful, iridescent bubbles of various sizes, creating a magical and joyful atmosphere. The background is slightly blurred, showing other people and what appears to be an outdoor event space.

A playground that touches and inspires

We act in a network. Already now
and also in the exhibition:
Workshops, readings and activities
of cooperation partners and
multipliers take place here and
become a vital part of the
communication.

Just like the visitors themselves.

Because we humans are reason
enough for the Unconditional Basic
Income!

A marketplace of ideas & possibilities

We create a place of exchange of ideas and experiences. Because not everyone has a clear idea of a "Good Life".

Stories from people who have already had experience with the topic are shared. The exhibition offers space for discussions about visionary realities and future ideas for a society in which people are at the centre.

What we already have.

A woman with long brown hair, wearing a white wide-brimmed hat and a dark red long-sleeved top, is seen from behind. She is pointing her right index finger upwards towards a hot air balloon in the sky. The sky is a clear, light blue, and several hot air balloons of various colors (orange, yellow, blue, red, and patterned) are scattered across it. The overall scene is bright and cheerful, suggesting a festival or a clear day.

A project vision

We have the idea of an experience exhibition - a mobile world of experience, which invites to debate in public places, indoors and outdoors, on squares, in town halls, universities, libraries or museums.

We have the contents and ideas for the implementation.

A Europe-wide network

We have cooperation partners in Germany and Europe, a diverse network of social initiatives, passionate entrepreneurs and artists, as well as locally and nationally committed citizens.

Our common platform is the Hamburg Basic Income Network.

An exhibition agency with experience

We have an agency with many years of experience in the conception and realization of small and large exhibitions:

The Cologne agency facts & fiction is in the starting blocks and is looking forward presenting exciting aspects of the Unconditional Basic Income to exhibition visitors - interactively and participatively.

Further multipliers

Convinced people and organisations already support us ideally or financially.

We are very grateful for this. But we are looking for further multipliers and supporters to make our project vision a reality and to make a designable future comprehensible.

Your
support

GO
ALL
IN

The next step for the planning and design of the exhibition is a detailed concept as a basis for the creation and production.

For this next step we need your support!

25,000 euros are needed to enter the implementation phase.

Use our donation project at betterplace.org

or transfer directly:

Hamburger Netzwerk Grundeinkommen e.V.
GLS Gemeinschaftsbank
IBAN: DE49 430 609 672 008 366 700

In both cases, your contribution
is a tax-deductible donation.
